

Spark Nano F Ybhyffig Manual

Contents of the Box

Spark Nano

Cellular SIM Card

Wall Charger

* The SIM card is not missing. It is already installed in the device. Please keep the SIM card holder pictured above. You will need the indicated number during the activation process.

LEDS

To turn your unit on: Hold down the power button for 3 seconds until both LEDs blink.

LED 1 (satellite icon on the right)

; `ck g`FYX.

The power key has been pressed

The device received a valid configuration command

; `ck g`Green.

Fast flash means network searching

Slow flash means network is registered

Solid means SIM pin locked

Glows Blue:

Fast flash means the GPS is fixing. It will be solid for 2 seconds when GPS is fixed.

LED 2 (battery icon on the left)

Glow Red:

Solid means power is low

Slow flashes when charging

Glow Green:

Solid means, "charge completed"

After inserting the serial cable, this LED will illuminate for 8 seconds, which means it is checking battery status.

Glow Blue:

For Panic Button

LED 2 will be solid blue when the panic button is pressed. It will turn off again after the panic button is released. User must press the panic button for at least 3 seconds to start the SOS signal.

Troubleshooting

1) *“My tracker has stopped sending data.”*

Retrieve your unit and replace or recharge the batteries. Try turning the unit off and plugging it into the 12-volt power adapter. Then turn it back on. If you still do not receive data, the unit may need to be reprogrammed. Please contact our support department for assistance.

2) *“The “FIX LED” does not illuminate.”*

The unit should get a GPS location fix within a few minutes. If you do not receive a fix, take the unit outside and wait for a few minutes while the unit has a clear view of the sky.

3) *“My tracking page displays yesterday’s data.”*

Data is not updated on the map until new positions are reported. Look at the time of the “last report” on the map. If the time of the last report is before midnight central standard time, the current data is from the day before. Your tracker may have stopped sending data, please retrieve the tracker for testing.

If you continue to have trouble or need assistance with your tracker, please call our tech support department at 800-654-7966.
